## TWO ACCIDENTS ON SOUTHERN PACIFIC

Fruit Train Wrecked and Switch Engine Collides With Passenger at Sparks.

(Special to The Herald-Republican.)  
Ogden, May 7.—A fast east bound fruit train went into the ditch at Toy, a small station seventy miles this side of Sparks, Nev., on the Southern Pacific, at 4 o'clock this morning, when an axle on a car in the middle of the train snapped.

The train was maintaining a through schedule of 35 miles an hour and was said to be traveling much faster at the time of the accident.

Seven freight cars were piled up on the track and a number of others were derailed, spilling California fruit for hundreds of yards along the right of way. Wrecking crews sent out from Sparks cleared the track at noon today.

No one was hurt.

This afternoon Superintendent E. C. Manson of the Salt Lake division of the Southern Pacific left for the scene of the accident to determine the cause and blame.

In a collision between an east bound passenger train and a switch engine in the yards at Sparks last night B. S. Smith, the passenger fireman, and Fred Gahner, newsboy, were seriously injured. Two cars were turned turtle and badly smashed while three others were derailed. None of the passengers were hurt. Young Gahner was standing on the steps of one of the coaches when the collision occurred and was hurled under the overturned car. Luckily an iron rod, under which he fell, held the immense weight off the body, saving his life. He was cut about the head and body. Smith was hurt by jumping from the cab of the engine. Both were taken to the emergency hospital at Sparks.

## Ephraim Notes

Ephraim, May 7.—Representatives from the Ephraim Waterworks company made application for a franchise at the meeting of the city council last evening. It is almost certain that the franchise will be granted.

The franchise will be prepared this week and a form of lease whereby the city will assume the management of the proposed waterworks will be decided upon by the company.

Mayor Hansen received a communication from Professor Richard Lyman of the University of Utah, in which he stated that he would be in Ephraim for the good roads convention. He expressed willingness to furnish an estimate of cost of constructing the waterworks.

From a petition made by the members of the Commercial club at the meeting it is inferred that that body intend to carry out its plans of holding a fair at this place next fall. H. E. Jensen, chairman of the committee, petitioned the council to purchase a tract of land located between the city park and the railroad track. This, together with the park, is to be used for a race track and exposition grounds. The petition was referred to the committee on public grounds.

The judiciary committee informed the council that it was unable to report on the proposed prohibition ordinance.
